Dear Town Center Metropolitan District Community Members,

We appreciate your feedback on the letter sent on November 3<sup>rd</sup>, 2022, regarding homeowner installed gates and landscaping on district property. With consideration of this feedback and the covenants, we will not be requiring homeowners to restore the gates to their original condition.

Going forward, the installation of gates will **not** be approved or allowed on district property.

Thank you for your patience as we have worked through this issue.

Respectfully,

District Management
